

Fire Evacuation Chair

Learning summary

This learning covers how to work effectively with others during an evacuation, including communicating with other team members and coordinating efforts to safely move individuals down stairs or across uneven surfaces. Overall, the peace of mind that comes with evacuation chair training courses can be invaluable, helping individuals feel more prepared and capable in the face of emergency situations. This can also help to reduce stress and anxiety during these situations, allowing individuals to focus on the task at hand and help ensure the safety of themselves and others.

Learning aims

The aim of this learning is to equip the user with the necessary practical skills to use the evacuation chair.

Learning objectives

Learners will be able to:

- Prepare the evacuation chair for use
- Competently use the evacuation chair
- Effectively and safely house the evacuation chair after use

Applicable audiences	This learning is suitable for learners who will be required to use the evacuation chair				
Pre-requisites	There are no pre-requisites required for this learning				
Delivery method	This learning is delivered face-to-face in a classroom				
Duration	This learning will take 2 hours to complete				
Materials and resources required	Learners will need to wear comfortable clothing and appropriate footwear for practical work with the fire chair				
Refresher	It is recommended that this learning should be completed every 3 years				
Minimum learners required	4	Maximum learners required	12	CPD points	N/A
